GARDENA Comfort Rain Water Tank 4000/2 automatic

Commercial Reference: 1742-20
Article number: 966 64 76-01
EAN: 4078500174206

With the GARDENA Rain Water Tank Pump 4000/2 automatic you can use free rainwater from the tank for irrigating your garden. Either conveniently fill the watering can, or connect GARDENA nozzles, sprayers or Micro-Drip-Systems even more conveniently to the connecting pipe. Even the use of a sprinkler is possible. The pump is also suitable for draining.
Practical: for convenient and energy-saving operation, the Rain Water Tank Pump is equipped with an automatic function that is automatically activated for water retrieval and then switches off afterward.
To protect the pump against damage, an integrated filter and an additional foot prevent the suction of too-large impurities. Thanks to an integrated safety, dry-running is also not possible: when the water level is too low, the pump operation is automatically stopped. Only high-quality materials are used for the pump that guarantee powerful yet low-noise operation. A maintenance-free capacitor motor efficiently and quietly pumps the water through a 2-stage feed impeller. The pump is easy and convenient to handle. The telescopic pipe is infinitely
